

FORD TON TRUCK

DOES MORE FOR LESS

That the Ford One-ton Truck does more for the farmer or the merchant is proved by the great number of them now in daily use,—that it does this at less cost is shown by the actual figures—a smaller first cost and a much lower expense for operation and upkeep.

The Ford One-ton Truck has proved a great money saver, as well as a labor saver. It has solved the problems of economic transportation between the farm and the city.

The Ford One-ton Truck has all the merits of the Ford Car, with added strength for greater capacity. The worn drive of aluminum bronze gives unusual and positive power at a very low cost.

Come in and let us show you how the Ford One-ton Truck will help you and save you money in your work.

IMPORTANT

We are prepared to furnish the Ford One-ton Truck equipped either with Standard or Special Gearing. The Standard Gearing gives the truck a maximum of power. The Special Gearing increases the speed of the truck from five to seven miles an hour, converting it into a fast delivery car.

REV. AND MRS. CARVER

GIVE A RECEPTION

The parsonage of the Foreign church at Waimea was the scene of a charmingly arranged party on Saturday, Nov. 19th, when Rev. and Mrs. Carver gave a reception to the members of the congregation to enable them to meet Bishop LaMothe.

The hostess was assisted in receiving the guests, of whom there were over a hundred present, by Mrs. F. A. Alexander, Mrs. C. Bayer, Mrs. T. Brandt and Mrs. Sinclair Robinson.

Refreshments were served in the living and dining rooms which were decorated with bronze and yellow chrysanthemums, and delightful music was provided by Mrs. Snead, accompanied on the organ by Mrs. G. Brodie, while the Waimea Hawaiian Glee Club rendered selections which were greatly appreciated.

FROM THE OTHER ISLANDS HEALTH BOARD BUYS

\$30000 WORTH RADIUM

Two hundred and fifty milligrams of radium, valued at \$30,000, will be received by the board of health within a week or two from a concern in Colorado, and will be used in the treatment of cancer. The last legislature appropriated \$30,000 for the purchase of the metal.

DREDGERS UNCOVER KEEL OF VESSEL LONG FORGOTTEN

Old-timers of Honolulu will be interested in a rotting heavy beam of wood that lies partially buried in the mould of silt and mud which is being dredged out of the foundation for the clock-tower of the new municipal terminal pier, foot of Fourth street.

It was removed on Wednesday

when the dipper brought up its load. It was a portion of the keel of a vessel. How long it had remained buried there is not known to the contractors.

Contrary to general belief the spot on which the dippers are at work is not filled-in land, such as may have been the case along the old Esplanade, but apparently is the original mud and silt of a little peninsula. Upon this thick strata more dirt was placed and upon this the base for a pavement.

It is believed by waterfront men that in the old days, before the wharves were built at the foot of Fort street, or below the old fort itself, a vessel was beached and ended its days there, the hull gradually disappearing, leaving only the heavy keel beam, which was washed over with silt and mud, which gradually hardened.

The Turn of the Tide

The earning powers of man rise like the ocean tides—but recede after a time no less surely than do these same tides.

Your productive years should be the time during which to erect a barrier against dependent old age. A Living Trust created during these years will afford that invaluable protection when it is most needed.

An inquiry places you under no obligation.

FIFTEEN YEARS EXPERIENCE IN SETTLING AND MANAGING ESTATES

Home-made ice cream —can anything be more delicious?

Easy to make with Carnation Milk

Four cups Carnation Milk, 1 1/2 cups sugar, 1 cup water, 1 1/2 tablespoons vanilla. Carnation Milk is always ideal for making ice creams of any sort, because of its purity and richness. Eggs are not needed. For a plain vanilla ice cream, mix the sugar and a cup of the Carnation Milk together and let come to a simmering point; cook for five minutes in this manner; remove from fire; when cool, add remainder of the milk and water, and the vanilla. Freeze. This will make about a quart and a half.

This winter try making more frozen desserts at home. They are so delightful for warm weather eating, and so much more pleasant to make than cooking hot dishes.
